

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
DETROIT

C. HEIDI GRETHUR
DIRECTOR

June 13, 2018

Mr. Robert Groden, Plant Manager
Ford Motor Company Livonia Transmission Plant
36200 Plymouth Road
Livonia, Michigan 48188

SRN: A8645, Wayne County

Dear Mr. Groden:

The Department of Environmental Quality (DEQ), Air Quality Division (AQD), has received your request to void Renewable Operating Permit (ROP) No. MI-ROP-A8645-2012, Source-wide Permit to Install (PTI) No. MI-PTI-A8645-2012, and the ROP Renewal Application for Ford Motor Company Livonia Transmission Plant located at 36200 Plymouth in Livonia, Michigan.

The AQD has reviewed your request and has determined the request is appropriate because Ford Motor Company obtained PTI No. 34-18, effective on May 1, 2018. During the application review process for this PTI, Ford Motor Company was able to demonstrate the potential to emit of all criteria pollutants for the facility are currently less than major source thresholds due to the removal of the existing boiler house (EU-BOILER#1, EU-BOILER#2, EU-BOILER#3, EU-BOILER#4). PTI No. 34-18 also contains federally enforceable HAP emission limits to restrict emissions below the major source thresholds (note, the HAP limits are shared with the Ford Livonia New Product Center, SRN: M4734).

As a result, the AQD has voided ROP No. MI-ROP-A8645-2012 and Source-wide PTI No. MI-PTI-A8645-2012. In addition, the ROP Renewal Application, No. 201600136, received on August 16, 2016, has been voided.

If you have any questions, please contact me at the telephone number listed below.

Sincerely,

Wilhemina McLemore
Detroit District Supervisor
Air Quality Division
313-456-4685
